

Health

Insurance offer available to
PPMA members only.

- ◆ \$2,000 Accident Benefit
- ◆ 24/7 Customer Service
- ◆ Four Decades of Experience

Agri-Services Agency (ASA) provides farmers and agribusiness owners with quality health insurance coverage. We understand agriculture and we offer products at competitive rates. Our benefit programs are designed to help business owners attract and retain good employees.

ASA's health insurance program offers a broad selection of plans including Preferred Provider Organization (PPO) and Health Savings Account (HSA) options; all with nationwide provider acceptance. Many of our agribusiness health plans contain coverage for prescription drugs, accidents and vision care.

With more than 18,000 contracts, ASA's size equals buying power with our carrier partners. Product rates include some of the lowest carrier administrative fees. We also evaluate our health programs annually to ensure we provide low-cost or no-cost benefits for the most valuable preventative services.

Dental

ASA provides dental coverage through a nationwide provider, participating in a program with more than 100,000 group plans, covering more than 4.5 million people. The agribusiness dental plan, limited to ASA health insurance customers, covers 100 percent of preventative services, 90 percent of basic services, and 60 percent of major services for in-network dentists. A \$50 deductible is applied to basic and major services each year. The annual maximum benefit is \$1,000.

ASA's health insurance rates were more competitive than what we were able to find on our own. We saved money and the benefits were better. The customer service center is always there to help with questions.
